

New Industrial Index Shows India's Demonetization Failure

Retrieved Tuesday 16th of May 2017 07:53:18 PM

India has a new Index of Industrial Production (IIP). It is bigger and according to economists who track such things, it is better than the previous one. The IIP basically gives growth estimates of three sectors-manufacturing, mining and electricity. The manufacturing sector forms more than three-fourths of the IIP.
